

AIR 1 is very important to me and my local community. There are few radio stations that I know I can listen to with my children and know that what they are hearing is acceptable to me. If AIR 1 were to be displaced by an LPFM broadcaster my family would seriously be hurt. We would no longer have the clean programming that I allow my children to listen to. I believe it is in the public interest to keep AIR 1 on air because 1. Clean programming with no aggressive behavior can help to alleviate road rage. 2. It helps a family to be able to listen to music together. 3. There aren't many Christian radio stations that provide current music. 4. If there are enough people willing to contribute to the station to make it a non-commercial station, then there are enough people that listen and want it to continue.
